# IT IN A BOX®

All In One IT Solutions For Small Business

Small Business

Small Business owners are in business to serve their customer and to grow the business! To stay focused on what they do best, they look for solutions to better manage their business. When a tool can be utilized to improve services, provide solutions and support the IT environment, attention is focused on that solution.

Small business owners searching for IT solutions want and need a reliable, secure and easy-to-use platform, offering a portfolio of services, in one low cost solution.

Enter the EmergeCore® "IT in a Box®"

"As a small business, we are continually striving to minimize our costs and gain a competitive advantage. With 'IT in a Box®', we now have the capability to host our own website, as well as multiple domain names. While reducing our overhead, we have increased our overall market exposure. With a minimal investment, 'IT in a Box®' has become a valuable asset to our business."
